

Job Description

We are a leading manufacturer of fluid temperature and viscosity control systems and equipment. Our engineered solutions convert temperature into a tool our customers can use to control viscosity in material dispensing processes. We are looking for a talented **Engineering Manager** with a strong background in electrical and process engineering to join our leadership team.

Description:

Our engineering team works on a variety of interesting projects in the field of Fluid Process Controls and Automation for many Fortune 500 customers requiring design-build automation projects. This position is responsible for but not limited to: designing, developing, and supervising all aspects to develop electrical/mechanical control systems and equipment. Candidates are to perform a variety of tasks relying upon their experience and judgment to plan and accomplish goals while reporting to the General Manager. A certain degree of creativity and latitude is required. Candidates should have 2-4 yrs engineering leadership experience.

Responsibilities:

Serving as a member of the engineering team, you will need familiarity with most of the following:

- Computer Skills
 - Accomplished in the use of AutoCAD Inventor 3D
 - Accomplished in the use of the MSOffice Package (Word, Excel, Outlook, PowerPoint, etc.)
- Engineering Capabilities
 - Electrical Control/Power Systems
 - Heat Flow / Thermal Dynamics
 - Fluid Flow / Fluid Dynamics
 - Refrigeration Systems
 - Piping Systems
 - Common Standards (i.e. - ASME/CRN/CE/JIS/JIC/UL/CSA etc.)
- Process Knowledge
 - Industrial Processing Technologies
 - Paint Application Technologies
 - Sealer & Adhesive Application Technologies
- Oversee training, development and evaluation of the engineering team.

Requirements:

Candidates to have 2-4 yrs field experience. Bachelor's Degree in Electrical Engineering or related field or equivalent work experience.

Compensation is competitive based upon the candidates knowledge, skills, and abilities. Along with a competitive compensation package, we offer a comprehensive benefit package including medical, dental, 401(k), tuition reimbursement, and much more.
